The next committee meeting will be at 7.30pm on Wednesday, 3RD of OCTOBER at the Bellfield Community Hall.

The Warringal Orchid Society meets every third Wednesday of the Month at the Senior Citizens Hall in Hawdon Street, Heidelberg.

The next meeting of the society will be on Wednesday 19TH of SEPTEMBER.. The hall will be open from 7.00pm, and you are welcome to bench plants for judging and to socialise with other members. A sales table operates its pots and other orchid accessories available, and members are able to submit up to 6 orchids for sale for a small commission. See the sales table for details. Please be seated on time for the meeting to commence at 8.00pm.

This month's speaker is Hendrik Venter who will speak on the Orchids and gardens of the UK and Europe, Hendrik spent some time travelling the UK and spending time in Europe visiting gardens and exploring various orchid destinations including the Chelsea flower show 2018.

Hendrik is a great speaker who passes his knowledge and his adventures easily to his audiences, so come along and enjoy this great speaker and his wonderful topic so be early get a good seat, and enjoy.

Club Seedling

It's time to bring in your club seedlings for 2018, let us see how they are growing and how you are looking after them, see how your fellow members are doing with theirs.

Postage fees.

Please be aware that if you continue to have your bulletin posted out to you each month there will be an extra charge to your membership of \$11.00, this fee will commence next financial year so prepare yourself now and give us your email address now, those of you that don't have email let us know and we may be able to help.

Do twins ever realize that one of them is unplanned?

What if my dog only brings back my ball because he thinks I like throwing it ?

If a poison expires, is it more poisonous or, is it no longer poisonous?

Which letter is silent in the word "Scent," the S or the C?

Why is the letter W, in English, called 'double U'? Shouldn't it be called double V ?

Every time you clean something, you just make something else dirty.

The word "swims" upside-down is still "swims".

Your future self is watching you right now through memories.

Warringal Orchid Society Winter Show Results 2018

Award	Plant No		
Grand Champion Orchid of the show	89	Cym Jessie Blakiston x Flaming Vulcan	D.Wain

Best Display Orchids Intermediate		Stand B	B.O'Reilly & M.Brisi
Best Basket of Orchids		Basket 1	G&C.Dimech

Promenae Orchids

Prom Crawshayana

These are a little known group of miniature orchids from central and southern Brazil. It is believed there are between 8 and 20 species depending on the orchid books you research.

They grow like epiphytes in the moist forests at a moderate altitude and are part of the Zygopetalum/Lycaste group.

Why grow them?

- Plants will flower in 50mm tubes often with flowers as big as the actual plant.
- Compact growth so will take up little space.
- Great range of colours from greens to yellows to creams – then with various amounts of red to black spots and bars on the flowers.
- Flower size is about 50mm.
- Flowers last about 8 weeks.
- Summer flower which doesn't mind being kept inside the house.
- I've had a plant in 140mm pot which has produced over 110 flowers.

Cultivation

- Easy to grow – very forgiving little plants.
- Most critical point is LOW LIGHT about 80% shade (I often hang the plants under the bench.)
- Only small so can't be allowed to dry out as they will dehydrate quickly – need to keep just moist.
- I'm growing in mostly peat and perlite however bark has worked well.
- Temperature range in Maleny is 3° C. to 40° C. no problems if kept moist and dark.
- Extreme heat will result in withering and cold will result in leaf loss.
- Keeping foliage dry during cold is important.
- It is easy to rot new growths by leaving water in the leaf crown but plants are very forgiving and will just shoot new growths.
